M42N01-7E

Overview

Featuring the latest in connectivity convenience, the V7 2.4GHz Wireless Laser Mouse with storable Nano Receiver features an in-mouse USB connection. The sleek mouse's low battery indicator means no surprises when power runs low.
With highly durable, textured plastic, the mouse provides a smooth gliding experience, achieving maximum precision with minimal movement. Its shape and non-slip rubber grip augment its smooth operating experience. The mouse is 100 percent compatible with Windows 7/2000/XP/Vista or above and features 1200 dpi with a comfortable built-in tilt wheel.

The V7 Wireless Mouse with Nano Receiver provides the finest comfort in portable wireless freedom. The advanced tracking technology works on virtually any surface. Its slim and lightweight form factor offers convenient portability and handling, while the full-featured wireless mouse functionality provides familiar control and precise manipulation. A snap-in nano receiver sticks out less than a centimeter from the USB port and can easily remain plugged into the computer at all times. If not, it is easy to stow-and-go as the nano receiver stores neatly inside the mouse for transport. The nano receiver works instantly with any Windows computer without the need to install software. Enjoy the ultimate in advanced wireless technology for flexibility and movement without tangled cables.

Full-Featured Wireless Mouse

A slim, lightweight form factor for easy handling, the V7 Wireless Mouse is designed as a compact, portable, easy to set-up wireless mouse that is ideal or laptop computers or untangling a desktop. The cordless, USB nano-receiver is always ready to give you excellent control with a smooth scroll wheel. The rubber trim provides a solid feel and works for both left- and right-handed users.

Easy Setup

Simple to setup, the V7 Wireless Mouse with the nano receiver is literally "plug and play" and works instantly with Windows 2000/XP/Vista/7 operating systems without the need to install additional software and the receiver stores inside the device. Within seconds, you are ready to navigate your computer applications.

Low Battery Indicator

Featuring the latest in connectivity convenience, the V7 2.4GHz Wireless Mouse with storable Nano Receiver features intelligent battery management with a low-battery LED indicator, meaning no surprises when power runs low.

Touch and Feel

Small enough to fit into your hand, the textured plastic mouse provides a smooth gliding experience, achieving maximum precision with minimal movement. Its shape and non-slip textured grip makes it very unlikely youll drop it even with a light grip. The V7 Wireless Mouse will provide you the confidence that your mouse is ready anywhere you may be using your computer.

3-Year Warranty

The V7 Wireless Mouse with Nano Receiver is backed by a three-year warranty.
